

Board of Directors and term
expiration:

- ❖ Diane-Louise Alessi
2026
- ❖ Greg Bala
2026
- ❖ Jo Anne Carmona
2026
- ❖ Dan Negus
2024
- ❖ Rolando de la Torre
2024

SPECIAL NOTICE **Lead Pipe Testing**

New regulations from California Department of Drinking Water require all water agencies to inspect for lead pipe. In the coming months, CVPCSD will be conducting this important testing to verify the absence of lead on both the street side and homeowner's side of the meter. Homeowners must replace lead pipe discovered on their properties. For more information, visit our website.

Continued Call for Water Conservation

New issues have arisen in the water supply network, and customers of the Placer County Water Agency and the Nevada Irrigation District will need to practice their water conservation into 2025. Since our plant receives its untreated raw water from PCWA, that means conservation in Christian Valley Park, as well.

The two water agencies, PCWA and NID, said that while work continues to progress along two PG&E pipelines that were damaged from winter storms, a new problem occurred at Lake Spaulding.

As operators of one of the Spaulding powerhouses turned on the generator for testing, unforeseen mechanical failures occurred that created a major delay in the return of regular water flows along the system.

PG&E now estimates that with the additional repairs needed at Lake Spaulding, along with the continued work required on the Drum Canal, the earliest they expect water services to return to normal is summer 2025.

As the water demand from the reservoir continues to be far higher than the amount of water flowing in, we ask that everyone continue doing their best to conserve water where they can.

Fire Code and Burn Day Adherence

With autumn comes burning, and with burning comes a need to provide information on how to conduct legal outdoor burns.

Burning is only allowed on "permissive-burn days," regardless of whether it requires an APCD Burn Permit or not. Those wishing to burn must call 530-889-6868 or check the online burn day information each day to obtain the "Burn Day and No-Burn Day" information prior to igniting an outdoor fire. The "No-Burn" status is called either as a result of poor air quality conditions or due to hazardous fire conditions.

Get more information about residential burning at:
<https://www.placer.ca.gov/1677/Residential-Burning>

See whether today is a burn day at:
<https://burnpermit.fire.ca.gov/current-burn-status/>

Drive Safely

Residents are being reminded to travel through the District in safety. With the exception of Christian Valley Road, the speed limit is 25 mph throughout Christian Valley Park. This limit was set to account for dense foliage, winding curves, and very active wildlife. Please be both careful and courteous by following the set speed limits and being conscious of other drivers by avoiding the oncoming lane.

Call for Candidates

Residents of Christian Valley Park interested in joining the Board may contact the District at support@christianvalley.org. Please include a letter of intent. Residents may also call (530)878-8050 for more information.

The Christian Valley Park, CSD, Board of Directors schedule to meet on the second Tuesday of each month at 7:00 p.m. in the California Conservation Corps Administration Building, 3710 Christian Valley Rd. All residents of the District are welcome to attend in person or via Zoom. An updated agenda can be found at ChristianValley.org.
